Product number ZUB-CAP-210

Product description

Dust protection cap / dust cover / dust boot for DisplayPort female ports, bag with 50pcs, e.g. to protect unused device ports, black

Key features

- Protective caps (dust cover) for DisplayPort
- for covering/closing a DisplayPort female port
- packaging unit with 50 caps
- no sale of individual caps, sorry...
- protection against dust, moisture, etc.
- colour: black
- other product names: blind plug, port cover, blank plug, blanking plug, blind plug, dummy plug
- CE, WEEE, RoHS compliant

Application

Using a dust cap allows you to protect equipment ports and cable contacts from dust and dirt. This ensures a longer service life of your products.

Dust and dirt, which enter devices through unused ports, for example, tend to accumulate internally, which can lead to short-circuit malfunctions.
