

# USB to PS2 adapter for PS2 keyboard + PS2 mouse

Product number USB-0678

## Product description

USB to PS/2 adapter, USB plug type A to 2x mini DIN 6 port (female), to connect PS/2 mouse and keyboard via USB 1.1, ports colours match PC99 standard

## Key features

- USB to PS/2 adapter for mouse and keyboard
- port colour coding according to PC99 standard
- 1x USB type A connector (male)
- 2x PS/2 ports (Mini DIN 6 female) for PS/2 mouse + PS/2 keyboard
- bus-powered (no power supply required)
- no drivers required, plug & play
- RoHS compliant
- CE, WEEE, FCC

## Application

### Green = PS/2 mouse

The PS/2 mouse is connected to the green PS/2 socket on the adapter. The colour coding of the sockets corresponds to the PC99 standard (see [en.wikipedia.org](http://en.wikipedia.org) under "PC System Design Guide"). In addition to the colour coding, the 2 ports are also identified by symbols on the adapter (see illustration).

### Purple = PS/2 keyboard

Connect the PS/2 keyboard to the purple-coloured PS/2 socket (colour coding PC99 standard).
