

# USB 2.0 extender set with 4 port USB HUB max. 100m

Product number EX-1444

## Product description

USB 2.0 extender with integrated 4 port USB 2.0 HUB, transmitter + receiver/USB2-HUB unit, connection via Cat.5 or Cat.6 cable (up to 100m / 165ft), max. 480Mbps

## Details

It can connect all different USB 2.0 devices such as Printer, scanner, USB stick, etc., with a speed up to 480Mbit/s over a distance up to 100 meters. There are no limitations of USB devices. It is easy to install and requires no drivers or software. With a Cat.5/5e or 6 network cable, you can bridge over a distance of up to 100 meters between your computer (PC or MAC) and four USB peripheral devices. The transmitter of the extender is connected directly to the computer and up to four USB devices directly to the receiver. However, it has only ever a computer system on the USB peripheral device access.

- True plug and play, no driver installation required
- Extends USB 2.0 high-speed and USB 1.1 (low-speed, full speed) devices up to 100m over Cat. 5 / 5e / 6 cables
- Supports all USB device types: Control, Interrupt, Bulk and Isochronous at up to 480Mbps
- Ideal for a wide variety of USB devices, from printers, scanners, hard drives, and audio devices, touch screens, web cams, and game controllers
- Fully Compliant with USB specification 1.1 and 2.0
- Metal housing for installation on the wall, under the table or 19 "rack
- External power supply for the receiver is supplied
