

Firewire cable 4-to-6 - 4-pin right angle 35cm

Product number CF-4L6-003

Length 350mm

Product description

Firewire cable 4-pin to 6-pin, 4-pin plug right angled, very short version: 35cm, 400 MBit/s (for IEEE-1394a, i.Link, DV, S400, Firewire 400)

90° angled plug

This firewire cable, which was specially manufactured for us, has a 4 pin and a 6 pin plug. The special feature is the 4 pin plug angled to the left. This makes the cable particularly suitable for use in confined spaces at the 4 pin Firewire port. In addition, the angled plug can be much better fixed with adhesive tape to prevent it from slipping out than a straight plug.

PREMIUM cable material

The cable material is from Copartner, all plugs are molded and equipped with a strain relief.

Application areas

The cable can be used to connect a camcorder (4 pin port) to a desktop PC (larger 6 pin port). Or connect an external Firewire HDD housing with 6 pin interface on a notebook with a 4 pin interface (e.g. Thinkpad).

Technical data

- Firewire 400 cable 4 to 6
- 4 pin plug angled to the left
- 6 pin plug straight
- colour: black
- very short: only 35cm
- premium quality
- double shielded with twisted pairs
- up to 400 Mbps
- IEEE-1394a compatible
- for i.Link, DV, S100/200/S400, Firewire 400
