Single button mouse for old APPLE computers, ADB compatible

Product number MAUS-ADB-11

Product description

Single button mouse for very old APPLE computers, for ADB (Apple Desktop Bus), round 4-pin Mini-DIN plug, 100% compatible, with micro switch, 275dpi, manufacturer: UMAX

Key features

- mouse for very old Apple computers (when they were still grey-beige).
- for Apple Desktop Bus (ADB)
- branded product from UMAX (who had built Apple-compatible computers under licence at that time).
- 100% Mac ADB compatible
- ergonomic design
- 275 dpi
- for all Macintosh with ADB port (e.g. old Powermacs, Quadra, Performa, LC, Classic, SE, SE 30, II, IIx, IIcx, IIci, IIfx).
- also suitable for Mac clones (e.g. from UMAX)
- one-button mouse with micro switch inside
- connecting cable with Mini DIN 4 plug (4 pins, male) according to old Apple ADB standard
- technology with mouse ball
- brand new
- 2 years warranty

Application

This single button mouse closely resembles the original Apple mouse and has a comparable look and feel.

The mouse is 100% Apple compatible and a real alternative to the original Apple mouse, which is unfortunately no longer manufactured.

The cable of the mouse has a 4-pin Mini-DIN connector. This is the right type for Apple Desktop Bus (ADB). The quality mouse comes from UMAX, the well-known and at that time licensed Apple clone manufacturer.
