**Product number** USB2-HUB-27

## Product description

USB2 HUB 4 port, High Quality NEC chip, with power supply (2A) and USB cable, rugged design for industrial applications (metal body), wall fastening possible, EXSYS EX-1166HMV

---

## Description

The rugged EX-1166HMV USB metal hub with four USB 2.0 outputs can be installed on a wall or under the table top. It connects to a computer or server using the supplied USB 2.0 cable. It supports the Hi-Speed USB 2.0 data transfer rate of up to 480 Mbps and is backward compatible to USB 1.1. It can be powered with USB bus power or via the included 5V/2A screw lock power supply . The USB 2.0 cable (EX-K1542V) can be fixed with the finger screws without a screwdriver.
